LOW PRICES CONTINUED.
EVERY DAY IS NOW A BARGAIN DAY.

During every July we make a clearing out sale of summer goods at figures very much below early season's prices. Goods that haven't sold freely must now sell in this month at what they'll bring. We lower the price of almost every kind of goods in addition to slow sellers, to get ready for our semi annual inventory, so we make July the great summer bargain month of the year.

The store is full of bargains, but we mention only a few items.

Wash silks at 10 cents.

French organdies at 10 cents.

Summer Wash Goods.

Cool summer fabrics are priced down on a pair with prints. You'll find all sorts of low prices in this bunch of summer beauties from 2c to 10c a yard.

Sheeting and Domestic Bargains.

Ten quarter unbleached sheeting for 10c a yard.

All sorts of domestic at cut prices.

Will make extraordinary offerings all through July

It will be necessary to visit our store often to keep in touch with the great bargain opportunities we shall present from day to day

WEDNESDAY, JULY 6, 1898.

The fate of Cervera's fleet of warships will cause Emperor William of Germany to think twice before he attempts to dictate to the United States the future of the Philippines.

For the 568 Rough Riders who landed in Cuba, 208 have been wounded or killed. No further comment on their bravery is needed. To be a Rough Rider is to be on the nation's roll of honor.

Paducah is enjoying a most healthy improvement on all sides, regardless of the fact that a war is in progress. A ride around the city will convince the most skeptical of this fact. The improvement is clearly noticed in the erection of new buildings, which is taking place in all parts of the city. There are very few cities that enjoy the prosperity that characterizes this city.

A QUIET RETREAT.

The capture of the Ladrones islands furnishes the joke of the war. Some witty paragrapher remarked not long ago that those islands would be captured just as soon as their location was ascertained. But the public was not prepared for the comedy that actually took place when those islands were "captured."

The American fleet arrived off the capital June 21. The Charleston fired several solid shots at the fort. There was no reply. Soon another fell in another part of the bay and a skipper appeared. The commander of the fort came aboard with apologies, saying he failed to answer the salute as he had no powder. When told he was a prisoner, he almost collapsed with astonishment. A messenger was sent to the captain general of the island with instructions to come aboard the flagship. He replied that he was sorry, but the Spanish rule prevented his leaving the island to make a social call before the visitor pays his respects. He would be delighted, he said, to receive the captain at the glass palace at 10 o'clock tomorrow.

A squad of marines marched with an ultimatum to surrender in thirty minutes. He complied immediately. Neither of the commanders had heard that war was declared.

WATER NOTICE.

Patrons of the Water company are reminded that all water rents due on July 1. Those who desire to renew this quarter's rent should do so before they forget it, as all premiums not paid for or before July 1, will be shut off.
